COMPANY. By so doing you positively procure your goods from first hands, at Wholesale Importing prices, saving several profits made by these Grocers who have to buy of Dealers, who in their turn have bought of Jobbers, and they of Speculators, and so on to the Importers; so that, in fact, you get your Teas at a very alight advance on what it costs in China, and at a saving of from 5 to 8 profits.

S profits.

Our instructions to our buyers in China and Japan are to send none but pure Teas, which are by far the cheapest in the end, to say nothing of their wholesomeness.

All our Teas are chosen for their purity, and not for appearance.

One of our resident managers in New York is a professional Tea Taster, having spent over six years in China and Japan, which, together with eight years' experience in the Home markets, renders him one of the best judges in the trade. By this means we have a personal connection with those countries.

Our friends in China and Japan, from long experience with us, know exactly the kinds of Tea we require, which gives us manifold advantages over other companies, most of whom, if not all, purchase on this market exclusively, or at best, of first and second hand brokers.

We guarantee every pound of our Tea to be fresh and pure as imported, and to give satisfaction, otherwise we will take it back and refund the money.

Nothing short of our extensive trade enables us to dispose of our Invoices as fast as they arrive.
